

ENVIRONMENT PROTECTION LICENCE

(Pursuant to section 34 of the *Waste Management and Pollution Control Act*)

Licensee	NHULUNBUY CORPORATION LIMITED
Licence Number	EPL236
Registered Business Address	NHULUNBUY CORPORATION LIMITED 6648 22730 CENTRAL ARNHEM RD, WEST Road Nhulunbuy NT 0880
ABN	57 009 596 598
Premises Address	N.T. Portion 01646 plan(s) CP 004181 22730 CENTRAL ARNHEM RD, WEST ARNHEM
Anniversary Date:	02 September
Commencement Date:	02/09/2017
Expiry Date:	01/09/2022
Scheduled Activity	<p>Operating premises for the disposal of waste by burial that service, or are designed to service, the waste disposal requirements of more than 1000 persons.</p> <p>Collecting, transporting, storing, re-cycling, treating or disposing of a listed waste (as per Table 1) on a commercial or fee for service basis, other than in or for the purpose of a sewage treatment plant.</p> <p>Operating premises, other than a sewage treatment plant, associated with collecting, transporting, storing, re-cycling, treating or disposing of a listed waste (as per Table 1) on a commercial or fee for service basis.</p>
Description	

ENVIRONMENT PROTECTION LICENCE 236

Table 1 - Listed Wastes Authorised to be Handled

Listed Waste	Collection	Transport	Storage	Treatment	Recycling	Disposal
Acidic solutions or acids in solid form	✓	✗	✓	✗	✗	✗
Animal effluent and residues	✓	✗	✓	✗	✗	✓
Asbestos	✓	✗	✓	✗	✗	✓
Containers that are contaminated with residues of a listed waste	✓	✗	✓	✗	✗	✓
Lead, lead compounds	✓	✗	✓	✗	✗	✗
Tyres	✓	✗	✓	✗	✗	✓
Waste from the production, formulation and use of inks, dyes, pigments, paints, lacquers and varnish	✓	✗	✓	✗	✗	✗
Waste mineral oils unfit for their original intended use	✓	✗	✓	✗	✗	✗
Waste mixtures, or waste emulsions, of oil and water or hydrocarbon and water	✓	✗	✓	✗	✗	✗

✓ Activity authorised by this licence

✗ Activity not authorised by this licence

ENVIRONMENT PROTECTION LICENCE 236

INFORMATION ABOUT THIS LICENCE

- This licence does not in any way relieve the licence holder from its obligations to comply with the *Waste Management and Pollution Control Act* (WMPC Act), including the general environmental duty in section 12 of the WMPC Act and the duty to notify of incidents causing or threatening to cause pollution under section 14 of the WMPC Act.

Duration of a licence (section 40, 43 and 45 of the WMPC Act)

- A licence will remain in force until its expiry date or until it is surrendered by the licensee or is suspended or cancelled in accordance with the WMPC Act.
- The licensee must notify the Northern Territory Environment Protection Authority (NT EPA) within 14 days after ceasing to conduct the activity.
- The licensee may, with the approval of the NT EPA, surrender the licence to the NT EPA.

Amendment or Revocation of a licence (section 37 of the WMPC Act)

- The licensee may apply to amend or revoke a condition of this licence.
- A fee applies and the application must be made using the designated form via NT EPA Online.
- The NT EPA may also amend or revoke a condition of this licence as set out in section 38 of the WMPC Act.

Transfer of a licence (section 46 of the WMPC Act)

- The licensee can apply to transfer their licence to another person.

Renewal of a licence (section 40 of the WMPC Act and section 3 of the Regulations)

- The licensee may apply for the renewal of their licence not earlier than 90 days, and not later than 30 days, before their licence expires.
- A fee applies and the application must be made via NT EPA Online.

Public Register

- A copy of environment protection licences and any plans for environmental management, reports, submissions or documents required as a condition of an environment protection licence, will be placed on a register in accordance with section 9 of the WMPC Act.
- A copy of the Annual Return will be placed on the register.
- The NT EPA makes this register freely available from the NT EPA website.

Environment Protection Objectives (Part 4 of the WMPC Act), and Water Quality Standards (section 73 of the *Water Act*)

- An Environment Protection Objective (EPO) is a statutory instrument to establish principles on which:
 - a. environmental quality is to be maintained, enhanced, managed or protected;
 - b. pollution, or environmental harm resulting from pollution, is to be assessed, prevented, reduced, controlled, rectified or cleaned up; and
 - c. effective waste management is to be implemented or evaluated.
- In accordance with section 18 of the WMPC Act a beneficial use, quality standard, criteria or objective declared under section 73 of the *Water Act* and in force is an environment protection objective for the purposes of the WMPC Act.

ENVIRONMENT PROTECTION LICENCE 236

- The following EPOs and Beneficial Use Declarations (BUDs) are relevant to this licence:
 - Declaration of Beneficial Uses Gove Area Marine Waters:
 - Aquatic ecosystems protection;
 - recreational water quality; and
 - aesthetics, as specified.
- NTG Gazette No. G9, 11/03/1988 and No. G20, 27/05/1998.

Environmental Interests

- This section highlights sensitivity of the surrounding land use and environment associated with the location of the approved activity.
- Sites of Conservation Significance
 - SOCS 24 (NT Parks and Conservation Masterplan Map Number 9) - Gove Peninsula and north-east Arnhem coast
- Ramsar Wetland

Cultural Interests

- It is the licensee's responsibility to contact the Aboriginal Areas Protection Authority, appropriate land council or other governing body and ensure that any Authority Certificates required as a result of conducting the licenced activity are obtained and complied with.

ENVIRONMENT PROTECTION LICENCE 236

RULES FOR INTERPRETING THE CONDITIONS OF THIS LICENCE

- Where there is a discrepancy between the conditions of this licence and any plan, standard, guideline or other document referred to in this licence, the conditions of this licence prevail to the extent of the inconsistency.
- Any reference to any standard (Australian or international) in this licence means the relevant parts of the current version of that standard.
- A reference to any guideline or code of practice (or to the relevant parts of any guideline or code of practice) in this licence means the current version of the guideline or code of practice.
- Under section 39 of the WMPC Act, any contravention of or failure to comply with this licence by the licensee may be an offence.
- In determining whether the licensee has committed an offence, the licensee may be liable for the conduct of its directors, employees or agents.
- The licensee should ensure that each of its directors, employees, contractors or agents are aware of, and comply with, this licence.
- In this licence, unless the contrary intention appears, words that are defined in the WMPC Act are intended to have the meaning given to them in that Act.

ENVIRONMENT PROTECTION LICENCE 236

LICENCE CONDITIONS

GENERAL

- 1 The licensee must ensure the contact details recorded in NT EPA Online for this licence are correct at all times.
- 2 The licensee must at all times have a 24 hour emergency contact.
- 3 The licensee must pay the annual fee calculated in accordance with the method prescribed in the Regulations within 50 business days of the anniversary of the commencement date of this licence, for each year or part of a year that this licence is in force.
- 4 The licensee must cause clear and legible signage, in English, to be displayed in a prominent location at each public entrance to the premises that includes the following details:
 - 4.1 environment protection licence number issued under the WMPC Act; and
 - 4.2 24 hour emergency contact details.
- 5 The licensee must cause a copy of this licence to be available for inspection by any person, in hard copy form, at the premises.
- 6 The licensee must provide to the NT EPA, within 10 business days of a request, a copy of any document, monitoring data or other information in relation to the activity, in the format requested by the NT EPA.
- 7 All notices, reports, documents or other correspondence required to be provided as a condition of this licence, unless otherwise specified as a condition of this licence, must be provided in electronic form by uploading the document via NT EPA Online (or by emailing waste@nt.gov.au).
- 8 The NT EPA may require the licensee to revise or amend any notification, document, plan or report that is required to be submitted, maintained or implemented under any condition of this licence. If this is required, the licensee must submit the revised or amended version to the NT EPA by the date specified in the NT EPA's request.
- 9 The licensee must, for the duration of this licence, implement, maintain and follow a Consultation and Communication Plan which includes a strategy for communicating with persons who are likely to have a real interest in, or be affected by, the activity.
- 10 The licensee must maintain a Complaint Log for all complaints received by the licensee in relation to the activity.
- 11 The licensee must ensure that the Complaint Log includes, for each complaint received by the licensee, the following information:
 - 11.1 the person to whom the complaint was made;
 - 11.2 the person responsible for managing the complaint;
 - 11.3 the date and time the complaint was reported;
 - 11.4 the date and time of the event(s) that led to the complaint;
 - 11.5 the contact details of the complainant if known, or where no details are provided a note to that effect;
 - 11.6 the nature of the complaint;

ENVIRONMENT PROTECTION LICENCE 236

- 11.7 the nature of event(s) giving rise to the complaint;
 - 11.8 prevailing weather conditions at the time (where relevant to the complaint);
 - 11.9 the action taken in relation to the complaint, including any follow-up contact with the complainant;
and
 - 11.10 if no action was taken, why no action was taken.
- 12 The licensee must implement, maintain and follow an Emergency Response Plan that addresses procedures for responding to emergencies associated with the activity that may cause environmental harm.
- 13 The Licensee must ensure that all relevant personnel have received training in the implementation of the Emergency Response Plan.

EARLY SURRENDER OF LICENCE

- 14 Any reports, records or other information required or able to be provided by the licensee under this licence must be submitted to the NT EPA prior to the licensee surrendering the licence. If the date on which a report, record or other information is required falls after the date the licensee requests to surrender this licensee, the licensee must provide the report, record or information as far as possible using data available to the licensee up to and including the date the request to surrender the licence is made.

OPERATIONAL

- 15 The licensee must not collect, transport, store, recycle, treat or dispose of listed waste other than the listed waste specified in Table 1, and the corresponding activity/s authorised in Table 1.
- 16 The licensee must segregate waste received at the premises in clearly designated areas for recycling, re-use or disposal.
- 17 The licensee must ensure that only the following wastes are disposed of by burial at the premises:
- 17.1 putrescible waste;
 - 17.2 solid inert waste; and
 - 17.3 listed waste as specified for disposal in Table 1.
- 18 The licensee must ensure any plant and equipment used by the licensee in conducting the activity:
- 18.1 is reasonably fit for the purpose and use to which it is put;
 - 18.2 is maintained;
 - 18.3 is operated by a person trained to use the plant and equipment; and
 - 18.4 is operated by, or operated by a person accompanied by, a person trained to handle, store or dispose of listed waste in connection with the activity.
- 19 The licensee must ensure that litter:
- 19.1 is contained within the boundary of the premises;
 - 19.2 is not deposited or allowed to accumulate in stormwater drain(s), water or leachate dam(s); and
 - 19.3 does not accumulate along the boundary of the premises.

ENVIRONMENT PROTECTION LICENCE 236

- 20 The licensee must not cause or permit waste to be burned.
- 21 The licensee must maintain a log of fires occurring at the premises including the following information:
- 21.1 the time and date of when the fire was reported;
 - 21.2 the circumstance which ignited the fire;
 - 21.3 the time and date of when the fire ceased and whether it burnt out or was extinguished;
 - 21.4 the location of the fire on the premises (e.g. timber stockpile, putrescible waste);
 - 21.5 prevailing weather conditions;
 - 21.6 observations made in regard to smoke direction and dispersion;
 - 21.7 the amount of waste combusted by the fire; and
 - 21.8 action taken to extinguish the fire.
- 22 The licensee must notify the NT EPA of any fires at the premises by contacting the Pollution Hotline on telephone number 1800 064 567 as soon as practicable after (and in any case, within 24 hours after) first becoming aware of the fire. The licensee must provide the status of the fire and this licence number when contacting the Pollution Hotline.
- 23 The licensee must only handle asbestos containing material which is packed and contained in accordance with Section 4.8 of the NT Worksafe and Safe Work Australia How to Safely Remove Asbestos Code of Practice.
- 24 The licensee must dispose of asbestos containing material in accordance with the NT EPA Asbestos Disposal in the Northern Territory Disposal Requirements.
- 25 The licensee must cover waste in accordance with the NT EPA Guidelines for the Siting, Design and Management of Solid Waste Disposal Sites in the Northern Territory.
- 26 The Licensee must ensure there is no migration or overflow of leachate beyond the beyond the boundary of the land on which the premises are located.
- 27 The licensee must ensure that neither leachate nor water pond on or in closed or operational landfill areas.
- 28 The licensee must prepare a Landfill Closure and Post Closure Plan that is:
- 28.1 in accordance with the NT EPA Guidelines for the Siting, Design and Management of Solid Waste Disposal Sites in the Northern Territory;
 - 28.2 reviewed by a qualified person and they prepare a written report of their review, prior to submission of the Plan to the NT EPA; and
 - 28.3 submitted to the NT EPA, with a copy of the qualified person's review, at least 12 months prior to the forecast closure of the landfill.
- 29 The licensee must implement, maintain and follow the Landfill Closure and Post Closure Plan.
- 30 Where a landfill cell is no longer in use, the licensee must ensure that the landfill cell is closed and capped so as to achieve the landfill cap design objectives in the NT EPA Guidelines for the Siting, Design and Management of Solid Waste Disposal Sites in the Northern Territory.
- 31 The licensee must ensure that all materials that are likely to cause environmental harm are handled and stored in areas with a containment system in accordance with the relevant Australian Standard. Where

ENVIRONMENT PROTECTION LICENCE 236

no relevant Australian Standard exists, the containment system must be sized to contain 110% of the volume of the largest container within the area.

- 32 The licensee must ensure that all listed waste being transported from the premises is transported by a person licenced under section 30 of the WMPC Act to transport the listed waste.
- 33 The licensee must comply with the National Environment Protection (Movement of Controlled Wastes between States and Territories) Measure.

DISCHARGES AND EMISSIONS

- 34 The licensee must ensure there is no migration or overflow of a contaminant or waste, which causes or may cause environmental harm, beyond the boundary of the land on which the premises are located. (For the avoidance of doubt, this condition is not intended to authorise the discharge of a contaminant or waste to any land or water which discharge has not been specifically authorised by another condition of this licence.)

MONITORING

- 35 The licensee must implement, maintain and follow the Leachate, Surface Water, Groundwater and Landfill Gas Monitoring Plan ("the Monitoring Plan") from the commencement date of this licence.
- 36 The licensee must ensure that all monitoring samples are analysed at a laboratory with current NATA accreditation or equivalent, for the parameters to be measured.
- 37 The licensee must ensure that any proposed revisions to the Monitoring Plan (other than typographical changes or revisions to formatting or referencing) are:
 - 37.1 reviewed by a suitably qualified person, who must produce a written report about their review;
 - 37.2 submitted to the NT EPA with justification for revisions; and
 - 37.3 submitted to the NT EPA, in both hard copy and electronic form (with a complete copy of the qualified person's written review), 20 business days prior to the proposed implementation date.
- 38 The licensee must for all land based monitoring points specified in the Monitoring Plan:
 - 38.1 install and maintain appropriate identification signage so that they are reasonably identifiable at all times; and
 - 38.2 maintain safe access and egress, as is reasonably practicable.

For the purposes of this condition, the word "land" does not include water [or air] on or above land.
- 39 The licensee must ensure that, for each sample collected in accordance with the Monitoring Plan or the activity the following information must be recorded and retained:
 - 39.1 the date on which the sample was collected;
 - 39.2 the time at which the sample was collected;
 - 39.3 the location at which the sample was collected;
 - 39.4 the name of the person who collected the sample;
 - 39.5 the chain of custody forms relating to the sample;
 - 39.6 the field measurements (if any) and analytical results (if any) relating to the sample; and

ENVIRONMENT PROTECTION LICENCE 236

39.7 laboratory quality assurance and quality control documentation.

RECORDING AND REPORTING

- 40 The licensee must maintain records of the nature, quantities and source of waste, other than listed waste, received at the premises in each successive 12 month period following the commencement date of this licence.
- 41 The licensee must keep and maintain records relating to the listed waste handled by the licensee in each successive 12 month period following the commencement of this licence, which include:
- 41.1 the date of collection (for any listed waste delivered or picked up by a licensed listed waste handler);
 - 41.2 the source of the listed waste;
 - 41.3 the name of the transport company, if not the licensee (for any listed waste delivered or picked up by a licensed listed waste handler);
 - 41.4 the vehicle registration (for any listed waste delivered or picked up by a licensed listed waste handler);
 - 41.5 a description of the listed waste;
 - 41.6 the quantity of the listed waste;
 - 41.7 the final destination of the listed waste (for any listed waste delivered or picked up by a licensed listed waste handler); and
 - 41.8 whether the listed waste was stored, recycled, treated or disposed of.
- 42 The licensee must retain records relating to waste, including listed waste, as required by the conditions of this licence, for a period of 2 years after the end of the 12 month period to which the record relates.
- 43 The licensee must keep records of all non-compliances with this licence. These records must be adequate to enable the licensee to comply with the non-compliance notification conditions of this licence.
- 44 The licensee must notify the NT EPA of any non-compliance with this licence by completing the Non-Compliance Notification via NT EPA Online (or by emailing waste@nt.gov.au), as soon as practicable after (and in any case within 24 hours after) first becoming aware of the non-compliance.
- 45 The licensee must include in the notification of non-compliance the following information:
- 45.1 when the non-compliance was detected and by whom;
 - 45.2 the date and time of the non-compliance;
 - 45.3 the actual and potential causes and contributing factors to the non-compliance;
 - 45.4 the risk of environmental harm arising from the non-compliance;
 - 45.5 the action(s) that have or will be undertaken to mitigate any environmental harm arising from the non-compliance;
 - 45.6 corrective actions that have or will be undertaken to ensure the non-compliance does not reoccur ; and
 - 45.7 if no action was taken, why no action was taken.
 - 45.8 a date when an incident investigation report will be submitted to the NT EPA.

ENVIRONMENT PROTECTION LICENCE 236

- 46 The licensee must submit a completed Annual Return via NT EPA Online within 10 business days after each anniversary date of this licence, which report relates to the preceding 12 month period.
- 47 The licensee must complete and provide to the NT EPA a Monitoring Report, as prescribed by this licence, within 10 business days after each anniversary date of this licence.
- 48 The licensee must ensure that each Monitoring Report:
- 48.1 is prepared in accordance with the requirements of the NT EPA 'Guideline for Reporting on Environmental Monitoring';
 - 48.2 includes a tabulation of all monitoring data required as a condition of this licence for 12 month period preceding the anniversary date;
 - 48.3 includes long term trend analysis of monitoring data to demonstrate any environmental impact associated with the activity over a minimum period of three years (where the data is available); and
 - 48.4 includes an assessment of environmental impact from the activity.

PERFORMANCE IMPROVEMENT

- 49 The Licensee must submit a Landfill Environmental Management Plan for the premises:
- 49.1 by no later 30 September 2018
 - 49.2 that has been prepared by a suitably qualified person
 - 49.3 that addresses the requirements in Appendix B of the NT EPA Guidelines for the Siting, Design and Management of Solid Waste Disposal Sites in the Northern Territory
 - 49.4 that provides detailed information on the current interim management of landfill cells, including progressive capping and rehabilitation processes as relevant to environmental risks.

ENVIRONMENT PROTECTION LICENCE 236

END OF LICENCE CONDITIONS

This licence is not valid unless signed below:

Leonie Cooper
Director Environment Authorisations
Delegate of the Northern Territory
Environment Protection Authority
Dated: 26/04/2018

END NOTES

This licence replaces EPL 18-03 which was an amendment signed on 1 June 2016.

EPL 18-03 amendment superseded EPL 18-02 issued on 1 September 2014

EPL 18-02 was a renewal and superseded EPL 18-01, which was issued on 1 September 2011

EPL 18-01 superseded EPL 18, which was issued 1 February 2004.

EPL 18 replaced EPL 4, which was issued on 8 August 2003.

The end notes are to assist with historical records.

ENVIRONMENT PROTECTION LICENCE 236

DEFINITIONS

All terms in the Licence which are defined in the *Waste Management and Pollution Control Act* have the meaning given in that Act unless otherwise or further defined in this section.

DEFINITION	In this licence, unless a contrary intention appears:
24 hour emergency contact	the phone number of a person who can be contacted at any time and be capable of responding to and providing information about any incident associated with the activity.
Activity	the Scheduled activity as described on the covering page of this licence.
Air	includes any layer of the atmosphere.
Annual fee	yearly fee payable in respect of the activity as specified in the WMPC Act and the Regulations.
Annual Return	an NT EPA prescribed format for demonstrating and reporting compliance with the conditions of this licence and providing information on waste volumes for the preceding 12 month period.
Asbestos containing material	any material that contains asbestos.
Business days	a day not Saturday, Sunday or a public holiday, in the Northern Territory.
Complaint Log	a register of complaints to be maintained by the Licensee that records the details of each complaint received in relation to the activity.
Consultation and Communication Plan	a written plan documenting proposed consultation and communications for the activity before, during and after the activity which includes a strategy for communicating with members of the public who are likely to have a real interest in, or be affected by, the activity.
Contact details	includes the 24 hour emergency contact, and name, position title and phone number of a representative of the licensee who can be contacted about the licence and activity.
Contaminant	a solid, liquid or gas or any combination of such substances and includes: (a) noise, odour, heat and electromagnetic radiation; (b) a prescribed substance or prescribed class of substances; and (c) a substance having a prescribed property or prescribed class of properties.
Discharges	allow a liquid, gas or other substance to flow out from where it has been confined.
Emergency Response Plan	a written plan documenting the licensee's procedures for responding to emergencies caused by, resulting from or associated with the activity and that may cause environmental harm.
Environmental harm	(a) any harm to or adverse effect on the environment; or (b) any potential harm (including the risk of harm and future harm) to or potential adverse effect on the environment, of any degree or duration and includes environmental nuisance.
Environmental nuisance	means: (a) an adverse effect on the amenity of an area that: (i) is caused by noise, smoke, dust, fumes or odour; and

ENVIRONMENT PROTECTION LICENCE 236

- (ii) unreasonably interferes with or is likely to unreasonably interfere with the enjoyment of the area by persons who occupy a place within the area or are otherwise lawfully in the area; or
- (b) an unsightly or offensive condition caused by contaminants or waste.

Incident	includes: <ul style="list-style-type: none">(a) an accident, emergency or malfunction; and(b) a deliberate action, whether or not that action was taken by the person conducting the activity in the course of which the incident occurred.
Land	includes water and air on, above or under land.
Landfill cell	a purpose built area for the disposal of waste within a landfill.
Landfill Closure and Post Closure Plan	a written plan which specifies the landfill closure and post-closure activities as set out in the NT EPA Guidelines for the Siting, Design and Management of Solid Waste Disposal Sites in the Northern Territory.
Leachate	any liquid produced by the action of water percolating through waste, and that contains contaminants.
Listed waste	a waste included under Schedule 2 of the Regulations.
Litter	litter, garbage, rubbish, refuse or waste matter, and includes the body of a dead animal.
Maintain	kept in a manner that it does not present or cause a risk of environmental harm or a hazard to persons or property or, for the purposes of documents including plans, a process of reviewing and amending documentation to ensure it is relevant.
Material environmental harm	environmental harm that: <ul style="list-style-type: none">(a) is not trivial or negligible in nature;(b) consists of an environmental nuisance of a high impact or on a wide scale;(c) results, or is likely to result, in not more than \$50,000 or the prescribed amount (whichever is greater) being spent in taking appropriate action to prevent or minimise the environmental harm or rehabilitate the environment; or(d) results in actual or potential loss or damage to the value of not more than \$50,000 or the prescribed amount (whichever is greater).
NATA	National Association of Testing Authorities, Australia.
Non-compliance	failure or refusal to comply, whether by act or omission, with obligations or requirements and includes any exceedance of a licence limit.
Non-compliance notification	an NT EPA prescribed format for notifying the NT EPA of a non-compliance.
NT EPA Online	online system for Environment Protection Licence (EPL), Environment Protection Approval (EPA) and Waste Discharge Licence (WDL) lodgement and maintenance.
Plant and equipment	all material items used in association with the activity, including (but not limited to) storage vessels and containers, pipe work and hosing, vehicles (including vessels), tools, and measuring equipment.
Pollution	(a) a contaminant or waste that is emitted, discharged, deposited or disturbed or that escapes; or (b) a contaminant or waste, effect or phenomenon, that is present in the environment as a consequence of an emission, discharge, deposition, escape or disturbance or a contaminant or waste.

ENVIRONMENT PROTECTION LICENCE 236

Premises	the premises identified in this licence which includes equipment, plant and structures, whether stationary or portable, and the land on which premises are situated.
Public entrance	access to the premises that is utilised by the public.
Putrescible waste	the component of the waste stream liable to become putrid. For example, organic matter that has the potential to decompose with the formation of malodorous substances, usually refers to vegetative, food and animal products.
Qualified person	A person who has professional qualifications, training, skills and experience relevant to the nominated subject matter, and can competently assess, analyse and advise on performance relevant to the subject matter using relevant protocols, standards, methods or literature.
Regulations	<i>Waste Management and Pollution Control (Administration) Regulations.</i>
Solid inert waste	solid waste that has no active chemical or biological properties. These wastes do not undergo environmentally significant physical, chemical or biological transformation.
Stormwater	water flowing over ground surfaces, in natural streams and drains as a direct result of rainfall over a catchment and consists primarily of rainfall runoff.
Waste	(a) a solid, a liquid or a gas; or (b) a mixture of such substances, that is or are left over, surplus or an unwanted by-product from any activity (whether or not the substance is of value) and includes a prescribed substance or class of substances.
Water	includes: (a) surface water, ground water and tidal waters; (b) coastal waters of the Territory, within the meaning of the Coastal Waters (Northern Territory Powers) Act 1980 of the Commonwealth; and (c) water containing an impurity.
WMPC Act	the Northern Territory <i>Waste Management and Pollution Control Act.</i>
Monitoring Plan	the 'Gove Peninsula Waste Management Facility Leachate, Surface Water, Groundwater and Landfill Gas Monitoring Plan'; report number 115005_REO_004 REV 0 prepared by East Coast Environmental Pty Ltd for Nhulunbuy Corporation dated 5 December 2016.
